

The National and Kapodistrian University
of Athens, Greece

The Group of “**Ageing and Age-related diseases**” headed by Prof Ioannis Trougakos (<http://scholar.uoa.gr/itrougakos/home>) is looking for a **full time Lab Manager** to contribute (in close collaboration with the PI) to team’s research efforts, daily routine tasks and projects.

Key responsibilities: • Contribution to the ageing/age-related diseases on-going projects of the group • Close and effective collaboration with an interdisciplinary team and collaborators in Greece and abroad. • Support/organization and monitoring of the daily routine and tasks of the lab.

Required qualifications: • University degree in a relevant to biological sciences field. • S/he should have excellent written and oral communication skills in English.

Benefits: • **Competitive salary** and **performance-based incentives**. • Opportunities for professional development and a **long-term contract** within a collaborative and supportive work environment that fully values innovation, integrity and scientific excellence. • The position is fully compatible with an MSc in biomedical sciences and/or (depending on the skills) a PhD thesis project.

For **expressions of interest**, please send your **CV** and a **cover letter** (both merged into a single pdf file named with your last name) outlining your interests and suitability for the position to itrougakos@biol.uoa.gr by **September 10, 2024**.
